Madam,

Sub:-Permission to conduct the Activity.

I am G.Dianakamal and G.N.L.Pavani, working as lecturer's in
Computer Science Dept. in our college. I request you give permission to
conduct the Departmental Activity on 1-08-2023.

Thanking you,

Yours faithfully,

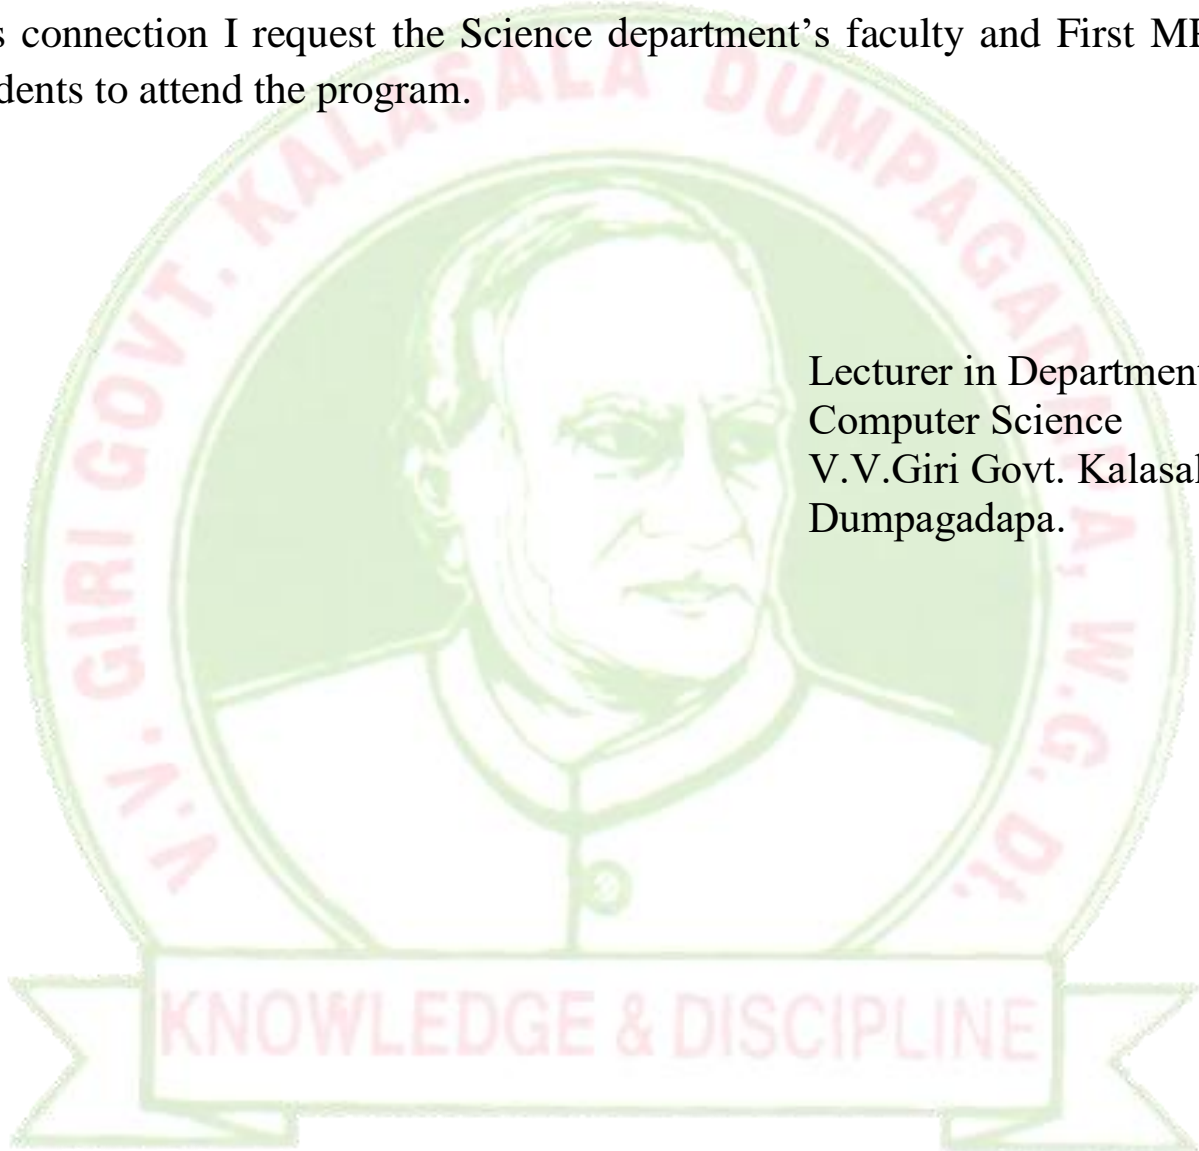

Notice

Dumpagadapa

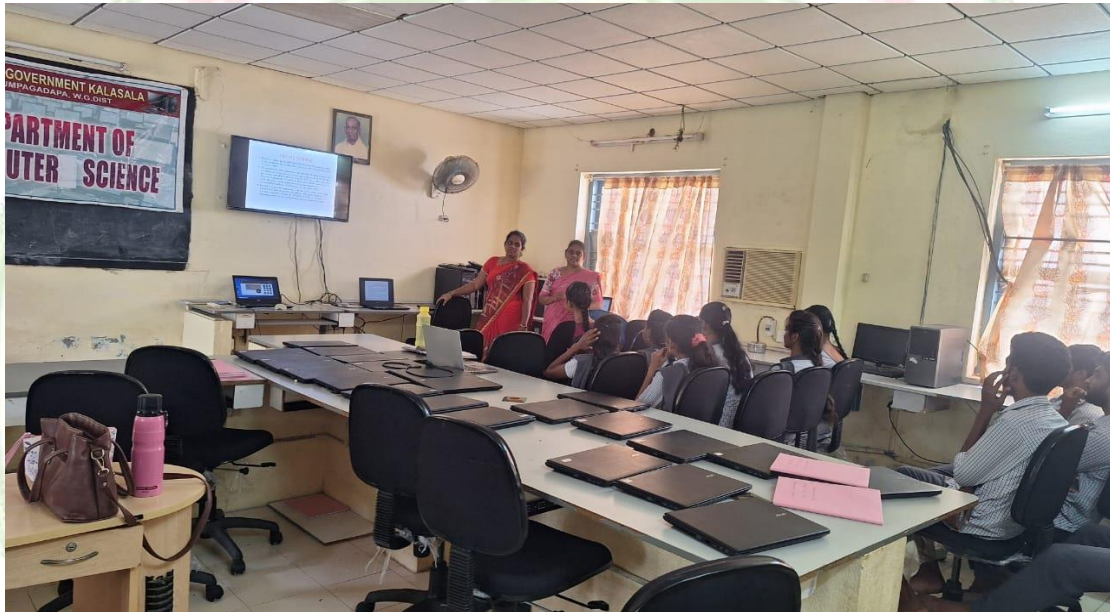

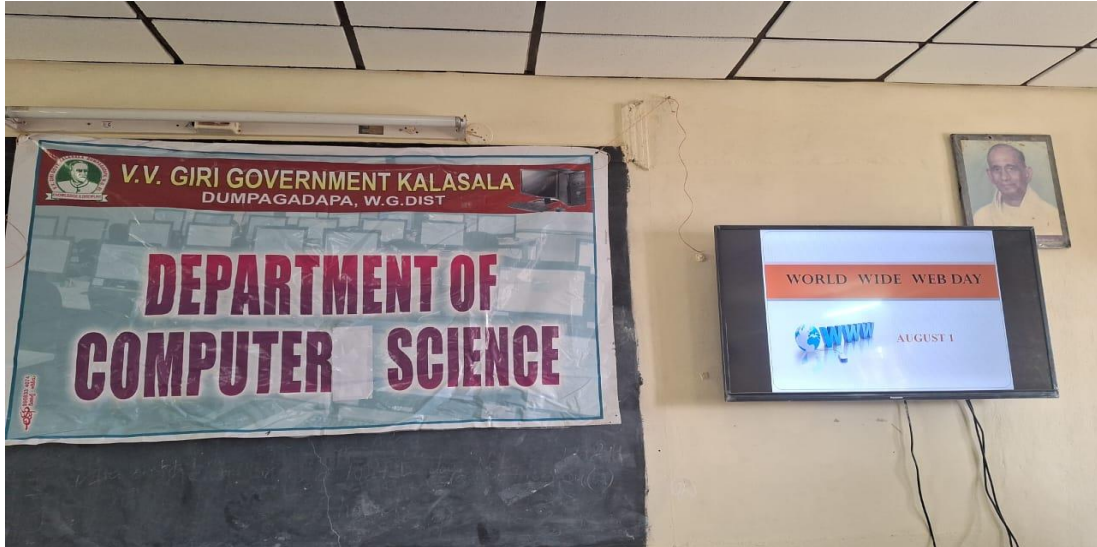

Dt:01-08-2023.

The department of Computer Science is going to organize Departmental activity as World Wide Web on 01-08-2023 at 11.00 am. In this connection I request the Science department's faculty and First MPCS students to attend the program.

Lecturer in Department
Computer Science
V.V.Giri Govt. Kalasala,
Dumpagadapa.

DETAILS OF THE ACTIVITY

Departmental activity in Computer Science has conducted on World Wide Web day in I B.Sc students and Msc students attended on 01.08.2023. The main moto of this activity is to know everyone should remember the day's of every computer environment related activities . The WWW(World Wide Web) Day is celebrated on 1st August, every year. It is a global celebration dedicated to internet web browsing, the online activities that bring the world at our fingertips and a wealth of information at our feet.

❖ Father of WWW

The proposal for the WWW was developed by Tim Berners-Lee in 1989 and was further enhanced with the help of Robert Cailliau, a Belgian informatics engineer and computer scientist.

❖ History of WWW

However, when the World Wide Web did reach the general public, it was an instant hit. At that time, it was merely a luxury, but today it's a necessity.

The popularity of the platform took off when the first website was produced and when photos started appearing on the web. The first photo was uploaded by Berners-Lee in 1992. Since then, there has been no stopping the World Wide Web and it furthermore proved to be the fastest-growing medium of communication by accumulating millions of active users by the mid-1990s.

But this was just the beginning — by the 21st century, web usage transcended into advanced smartphones that operated more or less like computers. Today, the World Wide Web can be accessed through gaming devices, cell phones, laptops, and even watches.

❖ Fun Facts about WWW

❖ Why we love WWW

CONCLUSION OF THE ACTIVITY

Department of Computer science organized a Activity of World Wide Web day on 1st AUGUST, 2023. In this program , we shared the knowledge to the students in presentation .

- **The invention is historical**

The day is celebrated because the invention of the WWW is historic and has completely evolved the world. Not only has it changed the way we interact, but it has also affected the advertising of goods and services.

- **A reminder of the past**

It's days like these that remind everyone of how things were before the web was invented and how difficult everything was. For instance, students would spend hours at the library to research a term paper.

- **It serves as a motivation**

Inventions such as the World Wide Web that will exist for years to come are super motivational and inspire the youth to strive to make a difference.
