Title of the Practice: CAMPAIGN AGAINST USAGE OF PP CARRY BAGS

Objectives:

Now days people are addicted to PP carry bags usage. The PP carry bags are not biodegradable hence their usage should be stopped.

The Context:

Soil will lose its fertility, thereby plants doesn't grow to the expected extent which leads to shortage of food grains. In order to overcome this problem the usage of PP carry bags should be stopped and in place of these bags made up of biodegradable materials like cloths or papers should be used.

The Practice:

Department of Chemistry is in practice of campaigning about the hazardous dangers of usage PP covers and the usage of bags made up of biodegradable materials.

Evidence of Success:

Department of Chemistry stitched cloth bags and involved the students in making of paper bags. These are distributed to people of Dumpagadapa village and aware those to use these bags instead of PP carry bags. The people expressed their feelings with full satisfaction.

Problems encountered and resources required:

The preparation of cloth bags is an expensive task. It is not possible for the staff of the department to contribute always, hence financial aid should be supported to continue the practice.
